LIQUID POWER ORIGINAL DIRT REMOVER

The original formula that set the standard of excellence in air filter oils. Many filter oils have a tendency to drain to one side, leaving part of your filter unprotected. Blue ORIGINAL Liquid Power starts thin for deep penetration, then dries evenly to microcoat the foam cell walls with a shield that repels dirt while accelerating airflow.

Formulated to quickly cut through ORIGINAL Liquid Power, loosen the dirt and flush your filter clean. Will not harden or damage filter foam like solvents and gasoline do.

1 liter CAN • 500ml SPRAY

LIQUID POWER BIO DIRT REMOVER

Like Original Formula, green BIO Liquid Power microcoats the foam cell walls prevents dirt, dust, mud and even water from entering your carburetor. Boost your bike's performance with the first biodegradable air filter oil that works in all riding conditions, with the added convenience of wash-down-the-drain cleaning.

Clean your BIO Liquid Power-oiled filter with BIO Dirt Remover. Mixed with hot water, the granular cleaner quickly cuts through the filter oil. Hand-wash your filter in a bucket or sink – this water-soluble cleaner can go right down the drain without clogging or harming the environment.

AIR FILTER SEALANT

If you're planning to ride in very extreme conditions, a bead of BIO Air Filter Sealant can provide that extra line of defense. It's airtight, waterproof, dustproof and grit-proof, and unlike grease, it will not dissolve under high heat or solidify in extreme cold. Biodegradable after removal with Twin Air Contact Cleaner.

CONTACT CLEANER

Clean your airbox, cage and more with this fast drying formula that leaves no residue. Safe for plastic and painted surfaces.

ICE FLOW

The Twin Air Ice Flow Coolant focusses on protection and performance.

It focuses on increasing heat dissipation to prevent overheating for maximum cooling efficiency. This product is ideal for all liquid cooled systems, not just off road motorcycles and ATV's. - Ready to use

dimineralized water, no need to dilute

Mono propylene glyco based (mpg)

Cutting edge nanotech and organic additive technology

Biodegradable, non-toxic

Reduces and maintains optimal operating temperatures

Extreme freezing point protection -26°C/-14°F

Long lasting protection of all metals/seals

Silicate free

Comes in a 2.2 litre container

Each bottle comes with a sticker to be used on the radiator cap
