1. MASSIVE FIELD OF VISION

Carrying the same lens as the Prospect goggle, the Fury offers you a maximum field of vision. The large lens combined with a thin frame construction brings the lens closer to your eyes. This maximizes your overall field of vision.

2. LENS LOCK SYSTEM

Transferred from the Prospect to the Fury Goggle, our innovative Lens Lock System is another highlight that distinguishes this new goggle. The Lens Lock System guarantees the safest lens retention on the market and enables you to change your lens anywhere anytime.

3. WFS50 ROLL OFF SYSTEM

The Fury Goggle is compatible with SCOTT's revolutionary WFS50. The WFS50 is the largest film on the market with no less than 50 millimeters, offering you up to 50 clear views even in the most challenging conditions.

4. PROSPECT ACCESSORY COMPATIBLE

WFS 50, lens tear offs, antistick grid or mudflap – any of these accessories can be used for both, our Fury and Prospect Goggle. This makes it very convenient to switch from one goggle to the other without worrying about the right accessories.
