Technical Data Sheet

BIO FOAM

ALL PURPOSE FOAMING CLEANER

DESCRIPTION:

Biodegradable, ultra-stable foam stays in place and works quickly to penetrate dirt, oil and other debris. Fast acting solution lifts debris from the surface, allowing easy removal with water. Proprietary formula promotes better foam adhesion to the surface, allowing for a more effective wash that saves time and money.

Special surfactants allow better wetting of solids while advanced micro chemistry scrubs the surface clean. Thick foam layer is tough on dirt, yet gentle enough to use on delicate surfaces including paint, plastic, chrome, anodizing, rubber, carbon fiber and almost anything you throw at it. Can be used at full strength as a heavy-duty cleaner/degreaser or diluted 10:1 to be used as an all-purpose cleaner.

Non-toxic, non-flammable and eco-friendly formulation contains no VOCs, harmful acids, CFC's or solvents and is 50 state VOC compliant.

FEATURES & BENEFITS:

- Surface tenacious, thick foam clings to the surface
- 100% biodegradable
- Can be diluted 10:1 as an all-purpose cleaner
- Advanced micro chemistry protects metal and alloys
- 50 state VOC compliant

APPLICATIONS:

Designed for use in a Maxima Foam Cannon (or other adjustable sprayer) and a pressure washer. Can be used full strength as a degreaser or diluted 10:1 as an all-purpose cleaner for use on nearly all surfaces.
